DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

2. The rejection of claims 8 - 18 under 35 U.S.C. 102(b) as being anticipated by Krivitski is hereby maintained for the reasons of record.

Claim Rejections - 35 USC § 103

3. The rejection of claims 1, 2, and 4 - 7 under 35 U.S.C. 103(a) as being unpatentable over Krivitski for the reasons of record.

Response to Arguments

4. Applicant's arguments filed 6/26/09 have been fully considered but they are not persuasive. Applicant's essential argument is that because Krivitski indicates that factors related to tubing, arrangements/geometry, etc. are accounted for when implementing their invention, this somehow does not comprise calibration of the sensor. Yet, contrary to Applicant's assertion, the portion of the reference relied upon by the Examiner and quoted at the top of page 9/16 of the Remarks particularly mentions calibration of the sensors and details equations and coefficients associated therewith. Further, Applicant's specification for the instant application details that calibration of the sensors accounts for these factors as well (see Specification, paragraph 0056). Applicant is reminded that claim terms are interpreted in light of the specification. Because the disclosed calibration of Krivitski accounts for similar factors to that of the instant application (per Applicant's spec), one must conclude that Krivitski must be

considered to be within the claim scope. To conclude otherwise would improperly require claim construction contrary to Applicant's disclosure.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
